Montana LOTTERY
For the fun of it! 2525 N. Montana, Helena, MT 59601 • P: 406-444-5825 • F: 406-444-5830

March 24, 2011

Montana Lottery Commission:

The past quarter has been an active one. We have had a busy winter preparing for another segment of our Fantasy Football, and Montana Millionaire game which began November 1st, along with the introduction of our new Player's Club Bonus Play drawings.

We have seen mostly decreases in our game sales this year with the exception of one. Scratch games have experienced an increase over last fiscal year. Scratch sales were 7.2% higher compared to last year at this time.

All of our other games have seen a decrease compared to last fiscal year at this time. Powerball sales were 21.7% lower, Montana Cash sales were only 1.5% lower, Wild Card sales were 31.3% lower, Hot Lotto sales were 13.6% lower, and Montana Millionaire sales were lower by 7.9%.

Overall, there was a slight decrease in operating revenues from last year at this time by 3.1%. These revenues include $391,296 from our new game 10 Spot and $1,424,646 from Mega Millions. Combined with a 12.9% increase in operating expenses, the percentage of transfer of revenue is 22.1% this year compared to 22.3% last fiscal year at this time.

The Lottery plans to introduce 50+ new scratch games during the fiscal year 2011. We plan to continue building scratch sales through innovative game themes and offering games with built-in name recognition (licensed property games).

We are looking forward this spring to another season of Fantasy Racing along with the introductions of our new scratch games which include Twister and Anchors Away which has four Royal Caribbean cruises as top prizes.

Sincerely,

Angela Wong
Director

MONTANA LOTTERY
STATEMENT OF NET ASSETS
DECEMBER 31, 2010 AND 2009

MONTANA LOTTERY
Notes to the Financial Statements (Unaudited)
December 31, 2010

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity.

The Montana Lottery, established under the provisions of Section 23-7-101, Montana Code Annotated (MCA), was approved by the Montana electorate through Legislative Referendum No. 100 on November 4, 1986.

Montana's first lottery tickets went on sale June 24, 1987.

The Montana Lottery is operated by a five-member commission consisting of Montana residents appointed by the Governor. The Commission, by law, has the power to operate a state lottery, determine the types and forms of lottery games, set the ticket price, number and size of prizes, conduct lottery drawings, enter into agreements to offer lottery games in conjunction with other lottery states and countries, and prepare financial reports. The Montana Lottery is attached to the Montana Department of Administration for administrative purposes.

The Montana Lottery is included as an enterprise fund in the State of Montana's Comprehensive Annual Financial Report. In accordance with governmental accounting and financial reporting standards, there are no component units to be included within the Montana Lottery's financial statements as a reporting entity.

Basis of Presentation. The Montana Lottery reports its financial activity in accordance with generally accepted accounting principles (GAAP) as prescribed in pronouncements of the Governmental Accounting Standards Board (GASB).

Enterprise Fund. The Montana Lottery is classified as an Enterprise Fund of the Proprietary Fund Type. Enterprise Funds account for operations: a) financed and operated similar to private business enterprises, where the intent of the Legislature is that costs are to be financed or recovered primarily through user charges, or b) where the Legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate.

Basis of Accounting. The Montana Lottery's financial statements are prepared using the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable; expenses are recognized in the period incurred, if measurable.

Property and equipment. Property and equipment are recorded at cost. Donated property and equipment are recorded at their estimated fair market value at the date of donation. Ordinary maintenance and repairs are charged to operations as incurred; major renewals and betterments are capitalized. Upon disposition or retirement of property and equipment, the cost and related accumulated depreciation or amortization are removed from the accounts. Gain or loss on disposal is reflected in non-operating revenues and expenses. Depreciation and amortization are calculated on a straight-line basis over estimated useful lives of three to ten years. The Lottery conforms to the State of Montana capitalization threshold for capitalizing property and equipment as well as buildings and building/land improvements. The threshold for capitalizing property and equipment is $5,000 and the threshold for capitalizing buildings/land improvements is $25,000.

Revenue Recognition. Lottery scratch ticket sales are recorded as revenue based on the time the retailer activates the pack of tickets for sale. In accordance with an established policy, retailers may return unsold tickets to the Lottery for credit. Sales are decreased by an allowance for estimated ticket returns.

Ticket sales for lotto games Powerball, Wild Card, Montana Cash, Hot Lotto, Montana Millionaire, Mega Millions, and 10 Spot are recorded as revenue based on drawings. Tickets sold in advance for future drawings are recorded as deferred revenue until such time as the tickets become valid for the most current drawing.

Ticket sales for Fantasy Sports games are based upon MCA 23-4-302 and an interagency agreement between the Lottery and the Board of Horse Racing.

Classification of Revenues. The Lottery has classified its revenues as either operating or non-operating according to the following criteria:

Operating revenues – include activities that have characteristics of exchange transactions, including (1) ticket sales, net of returns, and (2) retailer license fees and administrative fees in relation to selling lottery tickets.

Non-Operating revenues – include activities that have the characteristics of non-exchange transactions, such as gifts and other revenue sources that are defined as non-operating revenues by GASB No. 9, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting," and GASB No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments." Types of revenue sources that fall into this classification are state appropriations, investment income, and gain or loss on disposition of assets.

Free Tickets. Some Montana Lottery scratch games award free tickets as prizes. Net lottery ticket revenue does not include the value of free tickets given away and free plays won. The face value of these free ticket prizes distributed for the quarter and six months ended December 31, 2010 was $82,373 and $183,795, respectively.

Promotional Credits. The Lottery issues promotional credits to retailers to be used to distribute free tickets to players. The tickets are distributed as part of a promotion run by the retailer, e.g., "Ask for the Sale" or second chance drawings. The Lottery also directly distributes scratch tickets for promotional purposes at trade shows, for media give-aways, and during new game introductions. The tickets distributed as a result of promotional credits are reflected as a reduction in revenue. The related prize expense and ticket cost for all promotions are reclassified as an advertising expense. For the quarter ended December 31, 2010, promotional credits resulted in a revenue reduction of approximately $2,041 and an expense reclassification of approximately $1,708. For the six months ended December 31, 2010, promotional credits resulted in a revenue reduction of approximately $25,303 and an expense reclassification of approximately $20,187.

Prizes. Expenses for scratch prizes are recorded based on the predetermined prize structure for each game. Expenses for lotto prizes are recorded based on the predetermined prize structure for each individual game. No prize expense is recorded for free tickets distributed.

Unclaimed Prizes. Prizes for the lotto games must be claimed within six months after the appropriate draw date. Prizes for scratch games must be claimed within six months of the announced end of each game. The unclaimed prize amounts for the Montana Lottery lotto games are taken as a reduction in the Lottery Prizes Payable liability and the Prize Expense and are transferred to the State of Montana General Fund as a portion of the quarterly transfer. The amount of unclaimed prizes for all Montana Lottery games is represented in the table below.

	Quarter Ended 12/31/10	Quarter Ended 12/31/09	Year To Date 12/31/10	Year To Date 12/31/09
Lotto	$250,101	$137,119	$354,601	$266,153
Scratch	$ 91,048	$109,411	$331,834	$167,575
TOTALS	$341,149	$246,530	$686,435	$433,728

2. SUMMARY OF ACCOUNTS

Cash and Cash Equivalents. Cash and cash equivalents consist of interest-bearing deposits with the Montana Board of Investments short-term investment pool, cash on deposit in revolving account with a non-state financial institution and cash on deposit with the Montana State Treasurer that is part of the State's pooled cash and is not separately identifiable as to specific types of securities. These funds are highly liquid and may be drawn on daily.

Cash and cash equivalents consist of the following:

	December 31,	
	2010	2009
Short-term investment pool	$2,387,453	$1,179,123
Cash on deposit with State Treasurer	(18,454)	1,375,325
Cash in revolving deposit account	4,151	10,000
Petty Cash & Cash on Hand	150	150
TOTALS	$2,373,300	$2,564,598

The bank balance of the revolving deposit account, not including outstanding deposits or checks, was $20,293 at December 31, 2010 and was covered by federal depository insurance. The carrying amount reported in the balance sheet for cash and cash equivalents approximates the fair market value.

Receivables. Receivables include $4,166,954, representing amounts due the Lottery for tickets purchased by retailers. An allowance for ticket returns is included in the receivables amount. This allowance represents a reduction in receivables at December 31, 2010, for estimated ticket returns. This is an estimate based on returns received to date, as well as an estimate of tickets unsold by retailers for games that have a public sale end date prior to January 1, 2011. The allowance for ticket returns is $261,816 at December 31, 2010. The return of vendor fees related to the allowance for returns is $15,198.

Inventories. Inventories consist of merchandise and supplies inventories. Merchandise inventory includes scratch tickets valued at $564,836 stored in the warehouse, at retailers prior to being activated by the retailer, and with the marketing representatives. These ticket inventories are recorded at cost using the specific identification method and maintained on a perpetual inventory system. Tickets are charged to cost of tickets sold upon activation or after game end.

Supplies inventories include ticket dispensers, premiums and point-of-sale materials. At quarter end, supplies inventories totaled $56,903. These inventories are also recorded at cost using the specific identification method.

Property and Equipment. A summary of property and equipment for the Lottery is as follows:

	June 30, 2010	Additions	Deletions	December 31, 2010
Leasehold Improvements	$ 45,448	$ -	$ -	$ 45,448
Furniture & Equipment	$ 1,045,301	$ -	$ -	$ 1,045,301
Accumulated Depreciation	$ (351,669)	$ (79,886)	$ -	$ (431,555)

Other Current Assets. Other current assets include the following:

	December 31,	
	2010	2009
Prepaid Expenses	$ -	$687,605

The prepaid expense amount for 2009 consisted of $264,370 for the remaining truck prizes, and $423,235 for a down payment on our order of 50 Win Stations.

Transfer Obligations. The account "Transfer Obligations" is $3,081,183 payable to the General Fund at December 31, 2010.

Compensated Absences. State employees earn vacation leave ranging from 15 to 24 days per year depending on the individual's years of service. Vacation leave may be accumulated not to exceed two times the maximum number of days earned annually. With no limit on accumulation, sick leave is earned at 12 days per year. Upon retirement or termination, an employee is paid 100% for unused vacation and 25% for unused sick leave. The Lottery's liability for compensated absences is detailed below.

Balance June 30, 2010	Net Leave Earned/(Used)	Balance December 31, 2010
$226,833	$(42,069)	$184,764

Commissions. Section 23-7-301(10), MCA, provides retailers a commission on scratch and lotto tickets or chances sold. The Lottery Commission established this commission at 5% of the face value of scratch tickets activated by the retailers and the face value of lotto tickets sold. Section 23-4-302 (5)(b)(i), MCA establishes a 3.99% commission of the face value of Fantasy Sports tickets sold. In addition retailers can earn bonus commissions on tickets sold based on incremental sales of scratch tickets. For the quarter and six months ended December 31, 2010 retailers earned bonus commissions of $117,945 and $233,763, respectively. For the quarter and six months ended December 31, 2010 total commissions were $780,163 and $1,447,871, respectively.

OPEB (Other Post Employment Benefits) Implicit Rate Subsidy LT. Effective for Fiscal Year End 08, GASB Statement 45 and the reporting requirements for the "implied rate subsidy" required the State of Montana to book substantial liabilities. The liability is a result of the state's requirement to allow retired employees to remain in the retirement plan after retirement. This results in an implicit rate subsidy since retirees pay the same amount as active employees. "Actuaries Northwest" prepared the report for the State of Montana to calculate the Annual Required Contribution under the Governmental Accounting Standards Board (GASB). The allocation is made based on the fiscal year's benefits expense and the number of full time employees for an agency.

The Lottery's OPEB obligations for 2010 and 2009 are as follows:

Year ended June 30,	2010	2009
Annual Required Contribution	$ 83,673	$ 111,819
Adjustment to annual required contributions	-	-
Annual OPEB cost	$ 83,673	$ 111,819
Contributions made	-	-
Increase to net OPEB obligation	$ 83,673	$ 111,819
Net OPEB obligation – beginning of year	$ 216,188	$ 104,369
Net OPEB obligation – end of year	$ 299,861	$ 216,188

3. PAYMENTS TO OTHER STATE AGENCIES

The Lottery receives a variety of services, supplies, and materials from other state agencies. These services and materials are detailed below for the six months ended December 31, 2010:

Insurance	$ 4,307
Warrant Writing Services	389
Payroll Services	3,050
Audit Fees	4,310
Computer Fees	16,706
Printing	867
State Accounting System Support	2,388
Supplies & Materials	4,063
Mail Processing Fees	5,547
Telecommunications	22,514
Vehicle Rental Fees	372
Administrative Service Fees	33,343
Other	(553)
TOTAL	$ 97,303

4. PRIZES

Paid Prizes. Section 23-7-402, MCA states, "A minimum of 45% of the money paid for tickets or chances must be paid as prize money". Prize expense is recorded based on the predetermined prize structure percentage for each game less unclaimed prizes. For the quarter ended December 31, 2010, the prize expense of $7,243,505 is 54.93% of net Lottery ticket revenue of $13,187,646. For the six months ended December 31, 2010, the prize expense of $13,065,332 is 54.14% of net Lottery ticket revenue of $24,132,807.

5. TRANSFER TO STATE GENERAL FUND

Section 23-7-402(3), MCA, states "That part of all gross revenue not used for payment of prizes, commissions, and operating expenses, together with the interest earned on the gross revenue while the gross revenue is in the enterprise fund, is net revenue. Net revenue must be transferred quarterly from the enterprise fund established by 23-7-401 to the State General Fund." For the quarter ended December 31, 2010, the net revenue payable to the State General Fund totaled $3,081,183.

6. MULTI-STATE LOTTERY

In November 1989 the Montana State Lottery joined the Multi-State Lottery Association (MUSL). MUSL was created in September 1987 to operate a multi-state lottery game for the benefit of party lotteries. Powerball, Wild Card, Hot Lotto, and Mega Millions are the games jointly operated by the members, in which Montana presently participates. Each lottery participating in MUSL is represented on the Board of Directors.

The Multi-State Lottery Reserve Fund with a balance of $1,497,233 as of December 31, 2010 is comprised of several reserve accounts, which are maintained by the Multi-State Lottery Association (MUSL). The balance of these reserve accounts is as follows:

	December 31, 2010	December 31, 2009
Powerball Prize Reserve Account	$ 579,833	$ 518,311
Powerball Set Prize Reserve Account	160,104	172,770
Powerball Unreserved Account	166,714	219,079
Wild Card Prize Reserved Account	242,442	238,924
Hot Lotto Set Prize Reserve Account	340,075	289,907
Mega Millions Prize Reserve Account	8,065	-
Total	$1,497,233	$1,438,991

The Powerball Prize Reserve Account is to be used only in the event of an unanticipated prize claim. It is an insurance fund intended to protect the member lotteries against the liability that could result from a system failure at one of the member lotteries. All money paid to this fund would be returned to the Lottery one year after the Lottery leaves the Powerball game, assuming that no unanticipated prize claims have been paid. Interest earned on the Lottery's share of the fund, represented by the Unreserved Account, would be returned to the Lottery upon leaving MUSL. The amounts in the Unreserved Account may be used at the MUSL Board's discretion.

The Powerball Set Prize Reserve Account is used to fund prize payments for current drawings. Since the Powerball game has fixed prizes, it is often necessary to draw from this reserve to fund payment of prizes at the fixed amount. This account would be returned to the Lottery upon withdrawal from the Powerball Game.

The Lottery contributes to these reserve funds through the 50% set aside for prizes. In addition the Lottery was required to contribute for its portion of the reserve funds accumulated since the start of the Powerball game. Payments made to this fund are considered a portion of prize expense associated with the game.

The Wild Card Reserve Account is to be used in the event of an unanticipated prize claim on the Wild Card game. This account is also administered by MUSL and would be returned to the Lottery one year after the Wild Card Product Group of Idaho, Montana, South Dakota, and North Dakota is disbanded. The Lottery contributes to this account through the 55% set aside for prizes. Payments made to this fund are considered a portion of prize expense related to the Wild Card game.

The Hot Lotto Set Prize Reserve Account is administered by MUSL and is to be used only in the event of unanticipated prize claims. Like other MUSL games the reserve amount would be returned to the Lottery one year after withdrawal from the Hot Lotto game. The Lottery contributes to the reserve through the 50% set aside for prizes. Payments made to the reserve are considered a portion of the prize expense related to the game.

The Mega Millions Prize Reserve Account is to be used only in the event of an unanticipated prize claim. It is an insurance fund intended to protect the member lotteries against the liability that could result from a system failure at one of the member lotteries. All money paid to this fund would be returned to the Lottery one year after the Lottery leaves the Mega Millions game, assuming that no unanticipated prize claims have been paid. The Lottery contributes to the reserve through the 51% set aside for prizes. Payments made to the reserve are considered a portion of the prize expense related to the game.

7. GAMES

Currently, the Montana Lottery games are scratch ticket games, seven lotto games referred to as Powerball, Montana Ca$h, Wild Card, Hot Lotto, Mega Millions, 10 Spot, and Montana Millionaire, a limited edition lottery game. The lottery is facilitating Fantasy Sports Games on behalf of the Board of Horse Racing. Currently the Lottery is selling the Montana Sports Action Fantasy Football and the Racing games.

Scratch ticket games provide players the opportunity to win instantly by scratching latex covering to reveal a prize.

The Powerball game allows players the chance to win a minimum pari-mutuel jackpot of approximately $20 million. A player must match all 6 numbers to win the jackpot; players win prizes ranging from $3 to $200,000 for matching less than all 6 numbers. Drawings are held twice weekly on Wednesday and Saturday nights. For any drawing, if no ticket matches 6 out of 6 numbers, the jackpot rolls over to the next drawing to create a progressive jackpot. In March 2001, the Lottery added Power Play to the Powerball game. For an additional bet, the Power Play option provides non-jackpot winners the chance to multiply their prize amount by a factor of two through five.

The Montana Ca$h game allows players the chance to win a minimum pari-mutuel jackpot of $20,000. Players select 5 numbers from a field of 37 and must match at least 3 out of 5 to win a prize. Matching 3 of 5 wins $5 and 4 of 5 wins $200. The drawing is conducted twice weekly on Wednesday and Saturday nights. If no ticket matches all 5 numbers, the jackpot rolls over to the next drawing to create a progressive jackpot.

The Wild Card game allows players the chance to win a pari-mutuel jackpot, with a guaranteed minimum of $100,000. Players select 5 numbers from a field of 31 plus one of 16 face cards and must match all 5 numbers and the wild card to win the jackpot; players win prizes from $1 to $5,000 for matching less than all 5 numbers and/or the wild card. Drawings are held twice weekly on Wednesday and Saturday nights. If no ticket matches all 5 numbers and the wild card, the jackpot rolls over to the next drawing to create a progressive jackpot.

Hot Lotto allows players the chance to win a pari-mutuel jackpot with a guaranteed minimum of $1 million. Players choose 5 numbers from a field of 39 plus 1 Hot Ball number from a field of 19; the first 5 numbers and the Hot Ball must be matched to win the jackpot. Players can win prizes ranging from $2 to $10,000 by matching less than all 5 numbers and/or the Hot Ball. If no ticket wins the jackpot, it rolls over to the next drawing to create a progressive jackpot. Drawings are held twice weekly on Wednesday and Saturday nights. In January 2008, the Lottery added the Sizzler

option to the Hot Lotto game. For an additional bet, the Sizzler option provides non-jackpot winners the chance to multiply their prize amount by three.

Mega Millions is a multi-state game that allows players to win a minimum pari-mutuel jackpot starting at $12 million. Mega Millions went on sale March 1, 2010 in Montana. To win the jackpot, players must match all six numbers drawn; other prizes range from $2 to $250,000. Drawings are held each Tuesday and Friday. Mega Millions has a Megaplier option which multiplies non-jackpot prizes by two, three, or four. The Megaplier options costs $1 extra per play.

10 Spot, which went on sale February 1, 2010, is a Montana-only, twice daily game. Players select ten numbers from one through eighty. The Lottery draws twenty numbers, and players win by matching ten, nine, eight, seven, six, five, or none of the numbers drawn. Prizes range from $2 to $25,000.

Montana Sports Action is a product line introduced by the Lottery in August 2008 on behalf of the Board of Horse Racing. Montana Sports Action Fantasy Football was the first game within the Fantasy Sports Games to begin. Players choose five eligible offensive players and a defensive unit from the official roster of professional football players and teams, to create their own team. The players then choose a play amount ($5, $10, $20, $50, or $100) which determines the shares the player is eligible to win should their team have one of the three highest point totals for the week.

After completion of each week's professional football games, points are assigned to football players and defensive units based on their performance to determine the Lottery players' team's performance. Prizes paid must be 74% of sales for the week. How much the player wins is determined by their team's points and their share ($5 per share). Ticket sales are allowed each week of the professional football season beginning Tuesday morning for that week's games with no advanced purchasing allowed.

Fantasy Racing was introduced in February 2009, and follows the NASCAR® Sprint Cup Series. Fantasy Racing teams are created by selecting a driver from the top nine-ranked drivers for the week; three drivers ranked from ten through 34; and one driver ranked 35 or above. The sixth element in a player's Fantasy Racing team is the number of yellow-flag cautions the player believes might occur in that week's race. Players also choose the number of shares they wish to buy ($5, $10, $20, $50 or $100). Like Fantasy Football, the number of shares determines the amount of the prize each winning ticket will win. After each Sprint Cup race, points are assigned to each driver's performance, and teams with the top three point totals win. Ticket sales begin each week on Monday.

Montana Millionaire began on November 1, 2010 with the final drawing on January 1, 2011. The tickets were sold sequentially across the state with 1 to 125,000 available. There were 200 - $50 instant win prizes for every 625th ticket purchased. The final drawings consisted of one $1 million dollar top prize, four $100,000 prizes, and four $10,000 prizes. In addition, there was an early bird prize worth $10,000 which was drawn on November 26th. This game will begin again on November 1, 2011 with the final drawing on approximately January 1, 2012.

8. COMMITMENTS - GAMING SUPPLIER CONTRACTS

Scratch Tickets. On June 27, 2008 the Montana Lottery Commission approved the award of a five-year contract with Scientific Games International (SGI) for the provision of scratch tickets. The contract is for five years with the option for two additional one-year renewals. The contract contains specifications regarding ticket design, printing, game ownership, inspection, and prize structure.

SGI, as the vendor, provided a performance bond covering the contract term and an errors and omissions policy covering an ultimate net loss of $3,000,000. The Lottery may terminate this contract by providing proper notification to Scientific Games.

On-line Services. On October 11, 2005, the Lottery signed a seven-year contract with Intralot, Inc. of Duluth, GA to provide an on-line gaming system and the associated services beginning March 31, 2006. The contract requires Intralot to provide new terminals to all retailers with the associated software and communications. Payment under the contract is based on 5.8% of net weekly Lottery sales of lotto and scratch games. On August 18, 2008 an addendum was signed to provide services for the Fantasy Sports games at 3% of net weekly Lottery sales up to $2,999,999 of Montana Sports Action games. The contract currently has a termination date of March 30, 2016.

9. LOTTO*AMERICA/POWERBALL/TRI-WEST JACKPOT PRIZES

Jackpot prizes awarded in the Lotto*America/POWERBALL and TRI-WEST LOTTO games are funded through the purchase of U.S. Treasury Zero-Coupon Bonds purchased in the name of the Montana Lottery by MUSL. MUSL will cash the bonds each year as they mature and will wire the funds to the Lottery for payment to winners on the Anniversary date of the win.

On January 13, 1990 the Montana Lottery awarded its first Lotto*America jackpot prize totaling $1,740,000. The first annual payment of $87,000 was made on February 1, 1990. On May 9, 1990 the Lottery awarded a second Lotto*America jackpot prize of $3,000,000. The first annual payment of $150,000 was made on May 23, 1990. A third jackpot prize was awarded on February 2, 1991 for

$7,360,000. The first annual payment of $368,000 was made February 15, 1991. On November 23, 1991 a fourth jackpot prize was awarded totaling $46,967,738.57. The first annual payment of $2,355,738.57 was made December 12, 1991. On April 11, 1992 a fifth jackpot prize was won totaling $2,000,000. The first annual payment of $100,000 was made on April 27, 1992.

On July 6, 1994 the Montana Lottery awarded its first Tri-West Lotto jackpot prize totaling $700,565. The first annual payment of $35,000 was made on July 26, 1994.

On July 22, 1995 the Montana Lottery awarded its first Powerball jackpot prize totaling $31,401,655.99. The first payment of $1,571,655.99 was made on August 8, 1995. On April 5, 1997 the Lottery awarded a second Powerball jackpot prize totaling $11,000,000. The first annual payment of $550,000 was awarded on April 18, 1997.

On March 27, 1999 the Montana Lottery had a Powerball jackpot winner. The prize was $35.1 million ($19.35 million cash option). The winner chose the cash option and was paid a lump sum in June 1999.

On June 23, 2010 the Montana Lottery awarded its fourth Powerball jackpot prize. The total jackpot was $96,856,406 and was split between another ticket in Ohio. Half of the jackpot, which was again split between two winners in Montana, totaled $48.5 million (25.08 million cash option). The winners chose the cash option and were paid a lump sum in July 2010.

As of December 31, 2010, the combined total of future prize payments funded through the purchase of U.S. Treasury Zero-Coupon Bonds for Lotto*America winners was $100,000. The combined total of future prize payments funded through the purchase of U.S. Treasury Zero-Coupon Bonds for Powerball and Tri-West Lotto winners was $9,685,000. Total annual payments due as of December 31, 2010 are as follows:

FYE	
2011	$ 650,000
2012	2,155,000
2013	2,155,000
2014	2,155,000
2015	2,120,000
Thereafter	550,000
	$ 9,785,000

10. LEASES/INSTALLMENT PURCHASES PAYABLE

Rent. The Montana Lottery leases its office, administrative and warehouse facilities under a lease agreement that is effective September 2007 through August 2017. The monthly lease payment is $11,099 through August 2011. The base rate will increase 3% annually.

Capital Lease. The Lottery has contracted with its vendor to lease equipment for the remaining life of its contract with them. Obligations under this capital lease/installment purchase at December 31, 2010 are as follows:

FYE	
2011	$ 46,573
2012	89,977
2013	85,827
2014	81,677
2015	77,528
Thereafter	55,423
Total Minimum Payments	437,005
Less: Interest	(58,124)
Present value of Minimum Payments	$ 378,881

11. INVESTMENT RISK DISCLOSURES

Effective June 30, 2005, the State of Montana implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*. The Lottery participates in two investment pools: the Multi-State Lottery Association (MUSL) reserve accounts and the State of Montana's Short Term Investment Pool (STIP). There are four types of risk that must be disclosed. These risks are defined below, followed by their applicability to each of the investment pools.

Multi-State Lottery Association The MUSL investment policy for prize reserve and unreserved funds states that permitted investments "include direct obligations of the United States government, perfected repurchase agreements, and obligations issued or guaranteed as to payment of principal and interest by agencies or instrumentalities of the United States government, and mutual funds of approved investments".

Short-term Investment Pool All short-term funds are held in the State's Short Term Investment Pool (STIP) administered by the Board of Investments (BOI). STIP is an external 2a-7 like pool.

Credit risk is defined as the risk that an issuer of an investment will not fulfill its obligation, i.e., not make timely principal and interest payments. The STIP securities have credit risk as measured by major credit rating services, however, the pool is not rated. The Lottery does not have a policy regarding credit risk

Per MUSL, the prize reserves held on behalf of the Montana Lottery are invested in the Montana Winners Trust and include 51% in securities held as obligations of the U.S. Government and are not considered to have credit risk. The other 49% of the prize reserves are invested in Federal Agencies and have an AAA credit quality rating. The Lottery does not have any authority or a policy regarding the investment portfolios.

Custodial credit risk is the risk that the Lottery would not be able to recover the value of the investment or collateral securities that are in the possession of an outside party in the event of the failure of that party. Custodial credit risk does not apply to STIP because it is a 2a-7 like pool.

The MUSL prize reserves are held in the Montana Winners Trust using policies set forth by the MUSL board regarding policies for the type of securities, as well as the custody, trading and the use of proceeds of the securities. The Lottery does not have any authority or a policy regarding the investment portfolios.

Concentration of credit is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Because STIP is a pooled investment, this risk does not apply. Because the MUSL reserves are also a pooled investment, this risk does not apply to them either.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate risk does not apply to STIP because it is a 2a-7 like pool.

The MUSL prize reserves are invested through the Montana Winners Trust in the Morgan Stanley Government Portfolio Funds with daily liquidity and therefore have no interest rate risk. The MUSL board's investment policy limits the individual security and the portfolio's maturity. As of June 30, 2010, the duration for the U.S. Government Treasury securities was 1.036 years and for the Agency securities was 0.739 years.
